

**WOW! That was a great program at the garden club meeting!  
My guest enjoyed it so much  
that she said she wanted to join!**

National Garden Clubs, Inc. is looking for imaginative programs that inspire, educate, and entertain (even all three at once!) and receive responses like the above. Programs such as these are needed to help our garden clubs stimulate their current members as well as attract new ones.

With the encouragement of Barbara May, NGC President, a manual of garden club programs is being designed to gather together the most innovative programs that our garden club members have produced.

*Has your garden club had a program that “fits the bill”?  
Please share it with NGC and other garden clubs!*

Fill out the submission form below and send it in by January 1, 2008. All submissions will be acknowledged with a NGC certificate of appreciation. A panel of NGC members will select the 24 to 30 most creative and imaginative programs to be compiled in the manual.

(Qualifying programs should be deliverable at any meeting; guest speakers or site-specific materials are not suitable. A lecture may be a “script” that could be presented by a garden club member. Skits should have a script attached with submission.)
