LOCAL SCHOOL SERIES CHAIRMAN: _____

The following plant groups are to be selected in the order of school preference by the State/Local Flower Show Schools Chairman based on course scheduling and differing regional and seasonal growing conditions.

Required Plant Groups to be taught in Courses I-IV are:

1. Arboreal (at least two times in the School series)
2. Container-grown Plants (at least two times in the School series)
3. Cut specimens (at least two times in the School series)

The other two (2) plant groups and specific plants can be arboreal, container-grown or cut specimens.

SPECIFIC PLANTS MUST BE CHOSEN FOR EACH PLANT GROUP.

(Note: specific plants within a group may be changed, but must be approved by the NGC Accrediting Chairman for that Region.)
